

TIME

10 JUNE 2026

8:30 –
10:00

**SILFURBERG A
SESSION
ECMO**

Moderator: Hjörtur
Már Reynisson

Who to ECMO: A
framework
SURAJ YALAMURI

Ethical fast approach
to an ECMO ECPR/CS
STEFAN WIEBE

Alternative outcomes
in ECMO
**INGA LÁRA
INGVARSÓTTIR**

Update on ECMO in
Cardiogenic Shock
BENGT REDFORS

ECMO in Trauma, OB,
Sepsis
MATTHEW READ

**SILFURBERG B
SESSION
From fear to
trust –
Managing
procedural and
peri-operative
distress in
children - Part 1**

Moderators: Theodór
Skúli Sigurðsson

From procedural
distress to procedural
comfort – A framework
for managing
procedural distress in
children
PIET LEROY

From fear to trust -
Interpersonal methods
for establishing trust
with children
BARUCH KRAUSS

The child and family
friendly operating
theatre – optimizing
comfort care in the
perioperative
environment
EVA SCHAFFRATH

**KALDALÓN
SESSION
The Elderly
Patient**

Moderators: Einar
Freyr Ingason

Can we optimise
perioperative
outcomes for elderly
patients - the view of a
geriatrician
**ANNA BJÖRG
JÓNSDÓTTIR**

Can we optimise
perioperative
outcomes for elderly
patients - the view of
the anaesthetist
ELIN AAKRE

ICU for the very old
HANS FLAATEN

**RÍMA A
WORKSHOP
Pacemakers**

Moderators: Martin
Slettengren & Edda
Vesteinsdóttir

**JONATHAN H.
ROSSER**

**RÍMA B
FREE PAPER SESSION
Hemodynamics**

Moderator: Per Möller

Reliability of non-invasive finger cuff technology for
monitoring blood pressure in healthy volunteers and
cardiac surgical patients
RISSANEN, JEMINA EVELIINA

Reliability of ProAQT technology in measuring
cardiac output during off-pump coronary artery
bypass grafting
TUUKKANEN, PASI ANTERO

Myocardial injury after non-cardiac surgery – a
prediction model using continuous vital sign
monitoring
HOLM, JULIE TERP

Automatic monitoring of single-wall MAPSE by
transesophageal echocardiography tracks global LV
function irrespective of regional hypokinesia
YU, JINYANG

Perioperative right- and left-sided pressure ratios as
a measure of interventricular balance and outcomes
– a retrospective observational study
HJORTRUP, PETER BUHL

Agreement of four minimally invasive and non-
invasive monitoring devices in the detection of fluid
responsiveness
LAAKSO, MAARET JOHANNA

Reliability of minimally invasive and non-invasive
stroke volume variation monitoring devices in
microvascular free flap surgery of head and neck
LAAKSO, MAARET JOHANNA

Heart Rate Variability After Surgical Incision -
Phenotypes and Postoperative Outcomes.
MØLGAARD, JESPER

**VÍSA
FREE PAPER SESSION
OB Anaesthesia**

Moderator: Ove Karlsson

Mini spinal to enhance the success rate of external
cephalic version: - a protocol for a randomised
controlled study
TRANBERG LINDQVIST, ANNA

Neuraxial analgesia use among ethnic minorities –
does ability to communicate directly with the staff
increase the neuraxial analgesia use rate?
PIRSKO, LUISA-LINDA

Women's experience of cesarean delivery with
insufficient regional anesthesia and conversion to
general anesthesia. A qualitative multicenter study
NEDERGAARD, HELENE KORVENIUS

Pain relief, patient satisfaction, and recovery after
cesarean section: Insights from an epidural-based
multimodal analgesia approach
LANGILLE, SAARA JOHANNA

Can thromboelastography reliably reflect anti-Factor
Xa activity in LMWH-treated pregnant women?
CARLBERG, NICLAS

Nordic Analgesia in Labor – an institutional cross-
sectional survey
Haidl, Felix

Introducing remifentanyl for labour analgesia: A
qualitative study of midwives' early experiences
DUCH, PATRICIA

Remifentanyl for labour analgesia: a qualitative study
of Danish women's experiences
DUCH, PATRICIA

Implementation of a programmed intermittent
epidural bolus protocol – quality assessment of

	<p>Agreement between suprasternal and transoesophageal Doppler measurements of aortic velocity-time integral during abdominal surgery DJUPEDAL, HÅVARD</p>	<p>labour epidural analgesia at Odense University Hospital MADSEN, RASMUS</p>
		<p>Safer Births Scandinavia+- A Nordic collaboration to learn together from neonatal resuscitation and improve practice HAYNES, JOANNA CLAIRE</p>

10:00 – 10:30	EXHIBITION / COFFEE BREAK	
---------------	---------------------------	--

10:30 – 12:00	<p>SILFURBERG A SESSION Immunotherapy Moderator: Sören Pischke & Matti Reinikainen</p> <hr/> <p>ICU-demanding complications of CAR-T treatments HALLGERÐUR KRISTJÁNSDÓTTIR</p> <hr/> <p>Critical care outcomes of hematologic oncology patients SANGEETA MEHTA</p> <hr/> <p>Increased cancer after sepsis JOHANNA HÄSTBACKA</p>	<p>SILFURBERG B SESSION From fear to trust – Managing procedural and peri-operative distress in children - Part 2 Moderators: Theodór Skúli Sigurðsson</p> <hr/> <p>Case-based discussion on challenging situations, including:</p> <ul style="list-style-type: none"> • Planned vs emergency settings • Setting the scene - environmental challenges • Balancing safety and comfort • Choice of procedural or pre-operative sedative regime: drug choices and routes <p>PIET LEROY</p>	<p>KALDALÓN SESSION Is there a way to balance safety and efficiency of anesthesia Moderators: Friðrik Thor Sigurbjörnsson and Sólveig Helgadóttir</p> <hr/> <p>Safe reuse of infusion set components in anesthesia PER MÖLLER</p> <hr/> <p>Day surgery - is there a limit? HRÓLFUR EINARSSON</p> <hr/> <p>Managing a safe and effective day surgery unit SNORRI LAXDAL KARLSSON</p>	<p>RÍMA A WORKSHOP Point-of care ultrasound: cardiac, pulmonary and gastric Workshop Moderators: Diesh Kurian & Karl Kristinsson</p>
---------------	--	--	--	--

<p>RÍMA B FREE PAPER SESSION Airway Moderator: Sigrún Ásgeirsdóttir</p>
<p>One lung ventilation for left lobectomy in patients with type II tracheal bronchus HAGIHIRA, SATOSHI</p>
<p>Can intubate, cannot ventilate: A proposed algorithm to handle problems with ventilation and oxygenation after intubation SALOMONSEN, MAGNUS</p>
<p>Hyaluronic acid lubrication of the endotracheal tube and postoperative airway symptoms: a randomized controlled trial YOON, JUNG-PIL</p>
<p>Navigating difficult airway: Complex Robotic Oesophagectomy with postoperative vocal cord paralysis LEONG, GEE HUEY</p>
<p>Large airway growth – debulking and stenting: Anesthesia challenges in shared airway:- A series of 12 cases GARG, SHALOO</p>
<p>Pilot study investigating the efficacy of lignocaine nebulisation through a mouthpiece for topical anesthesia for awake flexible bronchoscopy SHETMAHAJAN, MADHAVI</p>
<p>Customized pillow elevation reduces difficult laryngoscopy during tracheal intubation in adults PRAKASH, AVINASH</p>

<p>VÍSA FREE PAPER SESSION ICU Moderator: Christian Rylander</p>
<p>Association of mixed venous oxygen saturation and cardiac index with the development of postoperative organ dysfunction after cardiac surgery YLIHEIKKILÄ, HENNA AMANDA</p>
<p>Limited Utility of Analgesia Nociception Index for Pain Assessment in Critically Ill Patients: A Prospective Observational Study KANG, CHRISTINE</p>
<p>Patients with deep neck infections in the ICU; microbiology, treatment and complications BROMAN LEVEAU, LINA</p>

<p>Severe Amanita poisoning with ventricular fibrillation during liver transplantation KNUDSEN, KAI</p>
<p>Outcomes of intensive care patients treated in university vs. non-university hospitals IHALAINEN, VILLE</p>

<p>BJÖRTULOFT WORKSHOP ECMO cannulation Hjörtur Már Reynisson / Suraj Yalamuri</p>
<p>The workshop teaches participants the basics of percutaneous sheaths and wires, as well as hands-on training in percutaneous ECMO cannulation. The number of participants in each session is limited to 12. The workshop is in partnership with EINZ.</p>

Association of SOFA and SOFA-2 scores with survival after ICU admission
IHALAINEN, VILLE

12:00 – 13:00

EXHIBITION / LUNCH

13:00 – 14:30

SILFURBERG A SESSION

Balancing it all - is it possible

Moderators: Martin Ingi Sigurðsson

Finding the balance in a large academic department of anaesthesiology and critical care

JOCHEN DANNY MUEHLSCHLEGEL

Balancing research and clinical care in the ICU - is it possible

SUSANNE MUEHLSCHLEGEL

Balancing education and providing safe anesthesia - is it possible

ANNEMARIE THOMPSON

SILFURBERG B SESSION

Balancing coagulation

Moderators: Johanna Hästbacka & Christian Rylander

Fibrinolytic balance

ANDERS ÅNEMAN

Platelets

LENE RUSSELL

DOAKs

MIRKA SIVULA

How to transfuse

ALLAN KLOMPAS

KALDALÓN SESSION

Advanced Haemodynamics in the perioperative setting

Moderators: Ólöf Viktorsdóttir

The big picture – current evidence in perioperative hemodynamic management

MICHELLE CHEW

Perioperative cardiac output monitoring – who, when and how?

ÞÓRIR SVAVAR SIGMUNDSSON

The interaction between volume state, cardiac function and venous return – operating room relevance

PER MÖLLER

RÍMA A WORKSHOP

Feedback – how to give and receive valuable feedback among specialist anesthetists

Workshop
Moderators: Cecilia Escher & Ebbe Hvidberg Bessmann

DORIS ØSTERGAARD

CECILIA ESCHER

OWAIN THOMAS

JELENA OULASVIRTA

RÍMA B FREE PAPER SESSION ICU

Moderator: Hans Kristian Flaatten

How are ICU referral decisions made? Implications for AI deterioration prediction systems

TODSEN, ANNA LOUISE

Functional status and life satisfaction one year after intensive care

PAANANEN, PAULIINA

Conducting conversations in the intensive care unit about future treatment and care – the patient's experiences

SMITH, METTE AABY

Psychometric properties of the Norwegian IPREA-N questionnaire for assessing discomfort in intensive care: A cross-sectional validation study

JOHANSEN, EDDA

Socioeconomic status and limitations of life-sustaining treatment in the ICU – an observational study using Finnish national registries

EHN, JENNA MARIA

Current treatment practices of postoperative delirium after cardiac surgery - a survey study in Scandinavian intensive care units

SARANKO, AINO

Impaired pre-critical illness quality of life in elderly ICU patients

FRISVOLD, SHIRIN KORDASTI

Prehospital identification of Sepsis: association with time to antibiotic treatment – a retrospective observational study from south

ROGALAND DRETVIK, ADRIAN BRUVOLL

VÍSA FREE PAPER SESSION Basic science

Moderator: Søren Pischke

Adrenaline increases spinal cord oxycodone concentration after epidural administration

HAATAJA, ANNA

Combined complement and platelet inhibition attenuates decompression-induced thromboinflammation in a human whole blood diving/ decompression model

STORM, BENJAMIN STAGE

The impact of different types of mechanical ventilation on the pathohistological changes of the lungs due to aspiration pneumonia

ZDRAVKOVIĆ, RANKO

Azithromycin and its non-antibacterial derivative EP317 attenuate ventilator-induced lung injury in an animal model

KARASON, SIGURBERGUR

--	--	---

The workshop focuses on the assessment of patient respiratory drive and respiratory effort and post-inspiratory activity, with a focus on lung protection and transition to spontaneous ventilation. This will be explained in an introductory lecture followed by practical application via clinical scenarios and discussion.

Abrupt pressure increase during cardiopulmonary bypass – case series on high pressure excursions at St. Olavs hospital
